

# PLACING LOVING DOGS IN FOREVER HOMES

## We only rescue and place dogs.

Unlike other shelters, we have a single purpose and mission: help more dogs find their forever homes. Our approach is completely different than other shelters, and our “keep” rates are the highest we know of...almost 100%!

### + All medical check-ups and shots are done

You don't add on to extra costs for medical once you adopt - we've taken care of everything with our in-house veterinarians.

### + Full bio, story and knowledge of each dog

We know these dogs and their personalities, and can help you find who might be the best fit for your family and lifestyle.

### + Support after adoption

We keep in touch and answer questions, check-in, and make sure the first few weeks and months are great for everyone.

**Come into our facility, take a tour, and meet our dogs!**
